

NHMWG Meeting 5/15/24.

HMGP DR- 4708 - Douglas County

- **East Valley Road Arch Culvert Project:**

Project Summary:

The project is located in the Town of Gardnerville, in Douglas County.

Replacing an existing dip section (Arizona Crossing) on East Valley Road with an arch culvert to keep East Valley Road passable during flood events. East Valley Road currently crosses the Pinenut Road Wash via a concrete dip section with a low flow culvert that regularly silts in and clogs. During flood stage, the dip section becomes impassable.

Federal/Non-Federal Share Information:

Federal Share - \$505,567

Non-Federal Share - \$168,522

Total Project Cost- \$674,089

- **Waterloo Lane Culvert Capacity Improvement Project:**

Project Summary:

The project is located in the Town of Gardnerville, in Douglas County.

The project seeks to increase the capacity to convey stormwater flows beneath the Waterloo Lane by installing additional stormwater culvert capacity. Increasing the capacity at the Cottonwood Slough crossing at Waterloo Lane will reduce localized flooding of Waterloo Lane.

Federal/Non-Federal Share Information:

Federal Share- \$516,564

Non- Federal Share- \$172,188

Total Project Cost- \$688,752
