

*CITY OF LAS VEGAS
BUILDING RESILIENT INFRASTRUCTURE AND COMMUNITIES (BRIC)
VIRTUAL INSPECTIONS, TRAINING AND CODE ADOPTION PROGRAM*

JANUARY 2024

The City of Las Vegas (CLV) BRIC Virtual Inspections, Training and Code Adoption Program aims to conduct a comprehensive update of the CLV Building codes and provide a comprehensive digital access to all updated building codes, and referenced standards. Additionally, the CLV will be able to implement enhancements to the Remote Virtual Inspections Program currently offered at the CLV.

The program will impact residents across the CLV jurisdiction - a population of approximately 659,236

DATA POINTS

The program will impact a population of approximately 117,070 residents living in underserved communities

BENEFITS OF CLV BRIC VIRTUAL INSPECTIONS, TRAINING AND CODE ADOPTION PROGRAM

Adopting latest building codes helps ensure a safe built environment for today as well as addressing concerns with future environmental constraints.

Training staff ensures buildings are built to latest standards and plan reviews are completed in an efficient and effective way.

Virtual inspections provides flexibility for the jurisdiction, the contractor and the homeowner. It also reduces the hazards associated with in-person inspections.

THANK YOU
