

# Communications Interoperability Update

January 13, 2016

---

Richard Burger  
Communications Coordinator  
Nevada Department of Safety - NHP

Thomas Moore, P.E.  
Asst. Chief Traffic Engineer  
Nevada Department of Transportation

# Current Status of NCORE

- NCORE Talk Groups reassigned by geographic area:
  - DPS Northwest – 51X, 61X, 71X, 72X
  - DPS Northeast – 52X, 62X, 73X, 74X
  - DPS Southern – 53X, 67X, 83X, 84X
  - Clark County – 54X, 66X, 81X, 82X
- Monthly connectivity testing between Clark County, SNACC, Nellis AFB, NSRS, and Las Vegas Metro Police Department.

# Current Status of NDIP

- NDIP Status meeting attendance expanded
- Quad County Technical Group established
- Quad Counties Connectivity:
  - Snow Valley dish issue – Carson to repair by 01/15
  - Ophir switch issue – Douglas to repair by 01/15
    - No redundant path – NDOT and WC will select best option to correct issue
  - Storey County has outbound audio issues – Washoe County will send technician

# Current Status of X-Band Repeaters (NCRN)

	<u>Sept. 2015</u>	<u>Jan. 2016</u>
• Sites fully operational	4	11
• Sites partially operational	16	10
➤ Backhaul circuit provisioning		
➤ Gateway configurations		
➤ Site configuration		
• Sites off line	5	4
➤ Infrastructure issues		

# Immediate Action Items

- Correct connectivity issues between Quad County MW link and NSRS
- Complete audio testing on all county gateway ports
- Establish redundant pathway between Quad microwave link and NSRS
- Develop a method for system failure notification
- Schedule site visits with Pershing and Mineral Counties
- Complete X-Band infrastructure/configuration improvements
