Streamlined Project Application Section III – Cost and Work Status Information

Section III Instructions
Applicants must complete this section and provide the costs of the activities reported in Section II. Applicants must also complete Schedule A, B, C, or E2 as instructed to estimate a project cost.

General Cost & Work Status Questions

An Applicant may request approval for expedited funding from the Recipient and FEMA if they have an immediate need for funding to continue life-saving emergency protective measures. If approved, the Applicant will be awarded 50% of the FEMA-confirmed project cost based on initial documentation. However, the Applicant will then be required to provide all information, including all documentation to support actual incurred costs, to support the initial 50% of funding before receiving any additional funding. Applicants will be required to return any funds that were not spent in compliance with the program's terms and conditions. In general, Applicants who have never received FEMA Public Assistance funding and do not have significant experience with federal grant requirements should avoid expedited funding or, at a minimum, discuss expedited funding with their Recipient emergency management office prior to requesting expedited funding. Expedited funding is only available for activities completed during specific time periods.

Does the Applicant want to request expedited funding? *

- Yes
- No

Is the Applicant's estimated cost for activities reported in Section II greater than or equal to $132,100.00? *

- Yes
- No

What is the status of the activities reported in Section II? *

An Applicant may not request funding for activities conducted prior to 01/01/2020, the beginning of the COVID-19 incident period. This question should be answered once to describe all the activities reported in Section II (i.e. the earliest start date and the latest end date). If FEMA's eligibility criteria for certain activities are limited to specific time periods, FEMA will ask for the time period that a particular activity was or will be conducted.

- Activities started and completed
- Activities started with projected end date
- Activities started with no predictable end date
- Activities have not started

* Based on your answers, you will be required to complete a Schedule C and a Schedule D form for this application upon completion of Section III.

You are required to complete a Schedule C and Schedule D form because activities are completed and the Applicant's estimated cost for activities reported in Section II is greater than $132,100.00.
