

STATE OF NEVADA MEETING NOTICE AND AGENDA NEVADA RESILIENCE ADVISORY COMMITTEE

Name of Organization: Nevada Resilience Advisory Committee

Date and Time of Meeting: Monday, August 17, 2020 – 2:00 P.M.

Teleconference Only:

Call: 970-984-6000

Access Code: 26304113#

Pursuant to Section 1 of the Declaration of Emergency Directive 006 signed March 22, 2020, as extended by Declaration of Emergency Directive 029, signed July 31, 2020, the requirement contained in Nevada Revised Statutes (NRS) 241.023(1)(b) that there be a physical location designated for meetings of public bodies where members of the public are permitted to attend and participate is suspended due to the COVID-19 emergency. Please see Attachment A. This meeting will be teleconferenced beginning at 2:00 p.m.

The Nevada Resilience Advisory Committee (Committee) may take action on items marked "For Possible Action." Items may be taken out of the order presented on the agenda at the discretion of the Chair. Items may be combined for consideration by the Committee at the discretion of the Chair. Items may be pulled or removed from the agenda at any time.

Please Note: Witnesses wishing to have their complete testimony/handouts included in the permanent record of this meeting should provide a written or electronic copy to the Committee administrative support staff. Minutes of the meeting are produced in a summary format and are not verbatim.

- 1. Call to Order and Roll Call** – Chair, Chief Justin Luna, State Administrative Agent (SAA), and Vice-Chair, Deputy Chief Billy Samuels, Urban Area Administrator (UAA).
- 2. Public Comment** – (Discussion Only) – No action may be taken upon a matter raised under this item of the agenda until the matter itself has been specifically included on an agenda as an item upon which action may be taken. Public comments may be limited to three minutes per person at the discretion of the Chair. Comments will not be restricted based on viewpoint.
- 3. Approval of Minutes** – (Discussion/For Possible Action) – Chair, Chief Justin Luna, SAA, and Vice-Chair, Deputy Chief Billy Samuels, UAA. The Committee will discuss and review the minutes of the July 28, 2020, Committee meeting. The Committee may vote to amend and approve or approve the minutes as provided.

4. **Review of Current Nevada Resilience Advisory Committee Bylaws** – (Discussion/For Possible Action) – Chair, Chief Justin Luna, SAA, and Vice-Chair, Deputy Chief Billy Samuels, UAA. The Committee will review the bylaws adopted on October 25, 2018, and revised on January 22, 2020, as a quarterly requirement denoted in the current bylaws. The Committee may vote to amend the bylaws based on issues identified during the review.
5. **Discussion on Building Consistency in Threat and Hazard Terminology** – (Discussion Only) – Jon Bakkedahl, Emergency Management Program Manager, Division of Emergency Management/Homeland Security (DEM/HS). Mr. Bakkedahl will present a proposed guide for building consistency in threat and hazard terminology and the use within statewide preparedness documents and communications.
6. **Review of Emergency Management Performance Grant (EMPG) Allocations** – (Discussion/For Possible Action) – Chair, Chief Justin Luna, SAA, and Kelli Anderson, Emergency Management Program Manager, DEM/HS. The Committee will discuss the Emergency Management Performance Grant (EMPG) program, its allocations for statewide programs, and historical information for how this allocation model was developed. The Committee will review the current EMPG allocation model and may recommend an improved allocation model.
7. **Public Comment** – (Discussion Only) – No action may be taken upon a matter raised under this item of the agenda until the matter itself has been specifically included on an agenda as an item upon which action may be taken. Public comments may be limited to three minutes per person at the discretion of the Chair. Comments will not be restricted based on viewpoint.
8. **Adjourn** – (Discussion/For Possible Action)

This is a public meeting. In conformance with the Nevada Public Meeting Law, and pursuant to Sections 3 and 4 of the Declaration of Emergency Directive 006 signed March 22, 2020, as extended by Declaration of Emergency Directive 029, signed Julye 31, 2020, this agenda was posted or caused to be posted on or before 9:00 a.m. on August 12, 2020, at the following:

- Nevada Department of Public Safety’s Division of Emergency Management and Homeland Security Public Meeting Notifications/Information Website: DEM Public Meeting Website at http://dem.nv.gov/DEM/2020_Nevada_Resilience_Advisory_Committee/
- Nevada Public Notice Website: www.notice.nv.gov

We are pleased to make reasonable accommodations for members of the public who are disabled. If special arrangements for the meeting are necessary, or if you need to obtain meeting materials, please notify Karen Hall, Division of Emergency Management and Homeland Security, 2478 Fairview Drive, Carson City, Nevada 89701 or (775) 687-0300. 24-hour advance notice is requested.

DECLARATION OF EMERGENCY

DIRECTIVE 029

WHEREAS, in late 2019, the United States Centers for Disease Control and Prevention began monitoring an outbreak of respiratory illness caused by a novel coronavirus first identified in Wuhan, Hubei Province, China; and

WHEREAS, on February 11, 2020, the International Committee on Taxonomy of Viruses named this novel coronavirus "severe acute respiratory syndrome coronavirus 2 (SARS-CoV-2);" and

WHEREAS, on February 11, 2020, the World Health Organization named the disease caused by SARS-CoV-2, "COVID-19;" and

WHEREAS, the World Health Organization advises that the novel coronavirus that causes COVID-19 virus is highly contagious, and spreads through respiratory transmission, and direct and indirect contact with infected persons and surfaces; and

WHEREAS, the World Health Organization advises that respiratory transmission occurs through both droplet and airborne transmission, where droplet transmission occurs when a person is within 6 feet of someone who has respiratory symptoms like coughing or sneezing, and airborne transmission may occur when aerosolized particles remain suspended in the air and is inhaled; and

WHEREAS, the World Health Organization advises that contact transmission occurs by direct contact with infected people or indirect contact with surfaces contaminated by the novel coronavirus; and

WHEREAS, some persons with COVID-19 may exhibit no symptoms but remain highly infectious; and

WHEREAS, on March 5, 2020, Clark County and Washoe County both reported the first known cases of COVID-19 in the State of Nevada; and

WHEREAS, on March 11, 2020, the World Health Organization declared COVID-19 a pandemic; and

WHEREAS, on March 12, 2020, I, Steve Sisolak, Governor of the State of Nevada issued a Declaration of Emergency to facilitate the State's response to the COVID-19 pandemic; and

WHEREAS, on March 13, 2020, Donald J. Trump, President of the United States declared a nationwide emergency pursuant to Sec. 501(b) of the Robert T. Stafford Disaster Relief and Emergency Assistance Act, 42 U.S.C. 5121-5207 (the “Stafford Act”); and

WHEREAS, on March 14, 2020, I formed a medical advisory team to provide medical guidance and scientifically based recommendations on measures Nevada could implement to better contain and mitigate the spread of COVID-19; and

WHEREAS, infectious disease and public health experts advised that minimizing interpersonal contact slows the rate at which the disease spreads, and is necessary to avoid overwhelming healthcare systems, commonly referred to as “flattening the curve”; and

WHEREAS, since the March 12, 2020 Declaration of Emergency, I have issued 28 Directives pursuant to that order to provide for the safety, wellbeing, and public health of Nevadans and the administration of the State of Nevada; and

WHEREAS, these Directives were promulgated to reduce interpersonal contact and promote social distancing to flatten the curve; and

WHEREAS, on April 30, 2020, I introduced the *Nevada United: Roadmap to Recovery* plan that outlined a phased approach to reopening Nevada businesses and industry; and

WHEREAS, the *Nevada United: Roadmap to Recovery* plan set forth a collaborative partnership between state and local governments that included the formation of the Local Empowerment Advisory Panel (“LEAP”) to serve as a resource to local governments and local communities; and

WHEREAS, on May 9, 2020, the State of Nevada entered Phase One of the *Nevada United: Roadmap to Recovery* plan; and

WHEREAS, on May 29, 2020, the State of Nevada entered Phase Two of the *Nevada United: Roadmap to Recovery* plan; and

WHEREAS, prior to entering Phase Two, Nevada experienced a consistent and sustainable downward trajectory in the percentage of positive COVID-19 cases, a decrease in the trend of COVID-19 hospitalizations, and a decline in our cumulative test positivity rate from a maximum rate of 12.2% on April 24, 2020 to 6.3% on May 27, 2020 with a 33-day downward trend; and

WHEREAS, the intensity of COVID-19 infections in Nevada is exceedingly fluid. As of July 28, 2020, the State of Nevada has experienced over fifty days of an increasing trend of hospitalizations for confirmed COVID-19 cases; and

WHEREAS, as of July 28, 2020, the State of Nevada has experienced forty days of an increasing trend in its cumulative test positivity rate of COVID-19 cases; and

WHEREAS, as of July 28, 2020, there is no cure or vaccine for the COVID-19 disease; and

WHEREAS, because the virus causing COVID-19 is novel, scientific and medical treatment knowledge about the virus and how to limit its spread is improving regularly; and

WHEREAS, NRS 414.060 outlines powers and duties delegated to the Governor during the existence of a state of emergency, including without limitation, directing and controlling the conduct of the general public and the movement and cessation of movement of pedestrians and vehicular traffic during, before and after exercises or an emergency or disaster, public meetings or gatherings; and

WHEREAS, NRS 414.060(3)(f) provides that the administrative authority vested to the Governor in times of emergency may be delegated; and

WHEREAS, Article 5, Section 1 of the Nevada Constitution provides: “The supreme executive power of this State, shall be vested in a Chief Magistrate who shall be Governor of the State of Nevada;” and

NOW, THEREFORE, by the authority vested in me as Governor by the Constitution and the laws of the State of Nevada and the United States, and pursuant to the March 12, 2020, Emergency Declaration,

IT IS HEREBY ORDERED THAT:

SECTION 1: To the extent this Directive conflicts with earlier Directives or regulations promulgated pursuant to the March 12, 2020 Declaration of Emergency, the provisions of this Directive shall prevail.

SECTION 2: The *Nevada United: Roadmap to Recovery* plan is hereby reaffirmed. This plan provides for a federally supported, state managed, and locally executed reopening approach, under which county governments and local municipalities are delegated the authority to impose additional COVID-19-related restrictions on businesses and public activities. Restrictions imposed by county government or local municipalities may exceed the standards imposed by Declaration of Emergency Directives and any State or federal guidelines to the extent reasonable, or set forth under the LEAP guidelines, but in no case shall such local guidelines be more permissive than the provisions of this Directive and the disease management plans it authorizes.

SECTION 3: The importance of the State’s county and city governments committing significant energy, resources, and time to enforcing the provisions of this and previous directives and in mandating conformance with health and safety standards central to the continuing fight against COVID-19 is reaffirmed here in the strongest possible form. Local governments and individuals, businesses, and other organizations may adopt practices that exceed the standards imposed by Declaration of Emergency Directives and the disease management plans they authorize, guidelines promulgated by the Nevada State Occupational Safety and Health Administration (NV OSHA) or LEAP guidelines, but in no case shall business practices be more permissive than the provisions of this Directive, its authorized disease management plans, or those imposed by NV OSHA and the LEAP.

SECTION 4: All directives promulgated pursuant to the March 12, 2020 Declaration of Emergency or subsections thereof set to expire on July 31, 2020, shall remain in effect for the duration of the current state of emergency, unless terminated prior to that date by a subsequent directive or by operation of law associated with lifting the Declaration of Emergency. Of note, Phase Two of the *Nevada United: Roadmap to Recovery* remains in effect. Directive 026, Section 8, extending Directive 021, Phase Two of the *Nevada United: Roadmap to Recovery* plan, is hereby extended until the earlier of termination of these provisions by a subsequent directive or termination of the March 12, 2020 Declaration of Emergency to facilitate the State’s response to the COVID-19 pandemic.

SECTION 5: The provisions of Section 4 do not extend to the recommencement of certain actions or directives, including Directive 025, previously terminated by express or implied order, or previously allowed to expire by operation of law.

SECTION 6: Pursuant to NRS 414.060(3)(f), I hereby authorize and renew my call to all local, city, and county governments, and state agencies to enforce this Directive and regulations promulgated thereunder, including but not limited to, suspending licenses, revoking licenses, or issuing penalties for violating business, professional, liquor, tobacco, or gaming licenses issued by the local jurisdiction for actions that jeopardize the health, safety, or welfare of the public; conduct which may injuriously affect the public health, safety, or welfare; conduct that may be detrimental to the public peace, health, or morals; or any other applicable ordinance or requirement for such a license.

SECTION 7: The State of Nevada shall retain all authority vested in the Governor pursuant to NRS Chapter 414.

SECTION 8: This Directive is effective at 11:59 p.m. on Friday, July 31, 2020 and shall remain in effect until terminated by a subsequent directive promulgated pursuant to the March 12, 2020 Declaration of Emergency, or dissolution or lifting of the Declaration of Emergency itself, to facilitate the State's response to the COVID-19 pandemic.

IN WITNESS WHEREOF, I have hereunto set my hand and caused the Great Seal of the State of Nevada to be affixed at the State Capitol in Carson City, this 31st day of July, in the year two thousand twenty.

Governor of the State of Nevada

Secretary of State

Deputy Secretary of State

Karen Hall		Nevada Division of Emergency Management - North		X	

1. Call to Order and Roll Call

Chief Justin Luna, Division of Emergency Management and Homeland Security (DEM/HS), called the meeting to order. Roll call was performed by Karen Hall, DEM/HS. Quorum was established for the meeting.

2. Public Comment

Chief Luna opened discussion for the first period of public comment. Mary Ann Laffoon, Northeast Nevada Citizen Corps, spoke to the National Community Emergency Response Team (CERT) Association, in partnership with the Federal Emergency Management Agency (FEMA). Ms. Laffoon reported that Nevada is well represented with CERT personnel throughout the state. All CERT groups are working hard to create statewide CERT capacity, and Ms. Laffoon thanked all the programs for their support.

3. Approval of Minutes

Chief Luna called for a motion to amend or approve the draft minutes of the June 29, 2020, Nevada Resilience Advisory Committee (NRAC) meeting. A motion to approve with no changes was presented by Todd Moss, North Lake Tahoe Fire Protection District, and a second was provided by Bob Dehnhardt, Nevada Department of Administration. All were in favor with no opposition. Motion passed unanimously.

4. Mitigation Grant Program Update

Janell Woodward, DEM/HS, provided an overview of the Building Resilient Infrastructure and Communities (BRIC) mitigation grant program in addition to providing an informational report on the current status of expenditures and implementation for programs and projects funded through the Mitigation Grant Program for Federal Fiscal Years 2010, 2014, 2016, 2017, and 2018 in order to ensure oversight and accountability. Chief Luna indicated that Ms. Woodward would be referring to handouts labeled 4a, 4b, and 4c. Highlights from the update included:

- The BRIC program will replace the Pre-Disaster Mitigation (PDM) program beginning in the fall of 2020.
- BRIC is a new FEMA pre-disaster hazard mitigation program that replaces the existing Pre-Disaster Mitigation (PDM) program and is a result of amendments made to Section 203 of the Robert T. Stafford Disaster Relief and Emergency Assistance Act (Stafford Act) by Section 1234 of the Disaster Recovery Reform Act of 2018 (DRRA).
- The Building Resilient Infrastructure and Communities (BRIC) program aims to categorically shift the federal focus away from reactive disaster spending and toward research-supported, proactive investment in community resilience.
- Through BRIC, FEMA will continue to invest in a variety of mitigation activities with an added focus on infrastructure projects, and community lifelines.
- What are Community Lifelines? A lifeline enables the continuous operation of critical government and business functions and is essential to human health and safety or economic security. Lifelines are the most fundamental services in the community that, when stabilized, enable all other aspects of society to function. There are seven Community Lifelines including:
 - Safety and Security;
 - Health and Medical;
 - Communications;
 - Hazardous Materials;
 - Food, Water, Sheltering;
 - Energy (Power & Fuel); and
 - Transportation.
- Once the Notice of Funding comes out, there will be more information to give to the NRAC.
- Chief Luna inquired if, in any of the preliminary BRIC information received, information was provided on whether “Concept” projects will continue to be accepted with the new BRIC program. These types of projects receive a small amount of funding to develop a new project. Per Ms. Woodward, the former term for this type of project was referred to as “Advance Assistance”; however, now, that is changing to “Scoping Project” to reflect the nature of the project more accurately. No other questions were presented regarding the BRIC program.
- A PDM 2019 application update was provided, and the following projects were chosen for further review:
 - Carson City Hazardous Mitigation Program (HMP) update;
 - Clark County HMP Update;
 - Churchill County HMP Update;
 - Douglas County Kahle Community Center Generator; and
 - Reno City Hall Seismic Retrofit Project.
- The project not chosen to move forward in the 2019 PDM application process was:
 - Henderson Generator Project
- These projects are being reviewed for completeness prior to sending to Environmental Planning and Historic Preservation (EHP). The HMP updates are planning grants and will be funded once they are complete.

DRAFT MINUTES – For approval at the August 17, 2020, NRAC Meeting

- Hazard Mitigation Grant Program (HMGP) – Post Fire Applications submitted and in review currently by FEMA Region IX prior to sending to EHP include:
 - Truckee Meadows Fire Protection District – Jasper Fuel Reduction project
 - Truckee Meadows Fire Protection District – Long Valley Fuel Reduction Project
 - Washoe County Lemmon Valley Flood Advance Assistance
 - Washoe County Rhodes Road Bridge Project
- A National Earthquake Hazard Reduction Program (NEHRP) 2020 project was submitted for the University of Nevada Reno (UNR), Bureau of Mines and Geology, by Dr. Craig dePolo. This project will summarize and document the May 15, 2020, magnitude 6.5 Monte Cristo Range earthquake, its impacts on the state, and effects of earthquake mitigation in affected counties that may have minimized damage.
- Chief Luna referred to Handouts 4b and 4c as additional information for the NRAC to review.

5. Homeland Security Grant Program (HSGP) Financial Update

Chief Luna referred to Handout #5 which provided the NRAC with an informational report on the status of expenditures for programs and projects funded through the Homeland Security Grant Program for Federal Fiscal Years 2017-2018 to ensure oversight and accountability. No questions were presented on this agenda item.

6. Homeland Security Grant Program (HSGP) Programmatic Update

Chief Luna referred to Handout #6 which provided the NRAC with an informational report on the current implementation for programs and projects funded through the Homeland Security Grant Program for Federal Fiscal Years 2016-2019 to ensure oversight and accountability. No questions were presented on this agenda item.

7. Discussion of Emergency Management Performance Grant (EMPG) Allocations

Chief Luna opened discussion on the Emergency Management Performance Grant (EMPG) program, its allocations for statewide programs, historical information for how this allocation model was developed, and the current EMPG allocation model in consideration of establishing an improved allocation model. Highlights of this discussion included:

- The NRAC was referred to Handout #7a – Certified Population Estimates of Nevada's Counties, Cities and Towns 2000 to 2019 Estimates from Nevada State Demographer, Nevada Department of Taxation. This is given to the NRAC as foundational material when reviewing different allocation scenarios provided.
- The NRAC was referred to Handout #7b which included:
 - Page 1 - EMPG Historical Allocations from 2016 through 2019
 - Page 2 - Population Change from 2010 Census to Current Population Estimates identified in Handout #7a,
 - Page 3 - Population numbers sorted highest to lowest for reference
 - Page 4 - Draft County and City Allocation by Population & Base. Page 4 and beyond explores different scenarios discussed during previous meetings on different allocation formulas, whether those formulas include a base amount/percentage for either counties only or counties/cities. On the left side of the scenario pages, there is reference to the current standard allocation breakout. On each of the scenario pages starting on Page 4 are different

DRAFT MINUTES – For approval at the August 17, 2020, NRAC Meeting

scenarios created on changes in base percentage amounts using a tiered-base allocation method as well as a population allocation, and then adding those up showing what the percentages of total allocation are, and what the reductions are to the proposed/draft allocation scenarios. In these scenarios, the local city/county allocations receive 50% of the total award, and the other 50% is allocated between the State and Tribal governments. There are notes provided from previous meetings for reference.

- Based on allocation percentages and formulas presented, any increases or decreases in the future will be shared equally based on the formula.
- In keeping with emergency management responsibilities, if cities do not have eligible programs, the city's allocation goes to the county. If counties do not have eligible programs, their allocation would go to the State.
- Emphasis was placed on the new Nevada Revised Statutes (NRS) 414.090 requiring each county to have an emergency management program.
- The State Administrative Agent (SAA) may consider reallocations outside of the formula amounts, and Tribal allocations will be managed through the Nevada Tribal Emergency Coordinating Council (NTECC).
- It is noted that allocations may change annually if the grant award changes.
- Population updates will reflect release of census data. Five years after a census, population will be derived by the State Demographer for purposes of this program.
- Format changes have been applied to pages 11 and 12 to show 1% base allocation for all cities and counties, and the remainder of award based on population. Adjustment columns indicate that since some of the counties and one of the cities has not been receiving EMPG allocations, standard allocations are zeroed out. Adjustments were made to show if a city's allocation was reallocated to the county, and if a county's allocation was reallocated to the State.
- There are a few jurisdictions that show reductions still even after looking at several different scenarios. Despite how the allocations are calculated, there will be several jurisdictions that will take a reduction.
- Jeanne Freeman, Carson City Health and Human Services, wanted a refresher as to how the percentages were determined. Chief Luna indicated it was based primarily off population. It appears this was done to ensure the fewest reductions to as many of the jurisdictions as possible. On Page 4's scenario, overall the cities and counties increase their amount that they are receiving; however the reductions total takes the sum of all the jurisdictions that actually have a negative allocation, and it fluctuates on how percentages are changed. Each scenario can be reviewed to see what is reduced. Ms. Freeman wanted an explanation on how tier-based percentages were determined to help the NRAC understand the different scenarios more effectively. Chief Luna indicated that not all scenarios include the tier-based percentages, but he will send out the explanation to the group.
- Jeremy Hynds, City of Henderson, inquired about FEMA's deadline of having to have a formula. That is still the case per Chief Luna, and this will be an action item in August 2020 for a formula to be presented as the 2021 award funding allocation formula.
- Kelly Echeverria, Washoe County Emergency Management and Homeland Security, spoke to Pages 11 and 12, and if cities did not have an eligible program, whether that allocation would reallocate to the county, but more importantly, could this be applied to other scenarios provided. Chief Luna indicated this could be done, and the intent is to impact the least number of jurisdictions negatively. Chief Luna indicated his interest in receiving feedback on any other ideas as to how to accomplish this, and he is open for suggestions.
- Carolyn Levering inquired on Page 1, noting it shows historical 2016-2019 allocations. Year to year is mostly the same for most jurisdictions listed; however, for the City of Las Vegas, the allocation changed during this time. On all the pages following, the standard allocation for City of Las Vegas reflects the 2016 allocation and should reflect the current program numbers. Ms.

DRAFT MINUTES – For approval at the August 17, 2020, NRAC Meeting

Levering presented concern on this allocation model based on the 2016 data, as it will impact her program. Chief Luna indicated the amounts on Page 1 include deobligation and reobligation amounts provided to the City of Las Vegas, and that is why the numbers increase. The standard allocations do not include any reobligated funds. Ms. Levering spoke to those considerations as personnel costs, and not one-shot projects. Any allocation that puts City of Las Vegas below the 2016 level will impact personnel. Chief Luna understood, as this funding stream supports personnel throughout the state. Any change may impact that and should be taken into consideration. Chief Luna re-emphasized the need to develop a formula based allocation method per FEMA's guidance. The standard allocation amount origins appear to be a historical breakdown of jurisdictional need at the time, as opposed to being based on any specific metric or measure. The discussion has gone on for years trying to figure out a better formula. In each scenario, there are some jurisdictions that will take a reduction. Chief Luna appreciates Ms. Levering's concerns.

- Kelly Echeverria referred to Pages 11 and 12 again and inquired if those funds that roll up to the state could be placed in supplemental funding that can then be applied for by jurisdictions as necessary. Chief Luna indicated that the state/tribal portion is taking a significant reduction as cities/counties are being allocated 50% of the award amount. In all scenarios, the State is taking the largest reduction amount. For the Tribal jurisdictions, a nominal increase is presented. Noting the county amounts that do not have programs participating, the State takes on some of that responsibility, and in a scenario like this, if allocations come up to the State, and if those counties do build up an eligible program and want to begin participating in EMPG allocations, the State would work with that county and allocate from the state portion back to the county. There will still be a deobligation and potential reobligation process done on an exception basis depending on funding availability.
- Jeremy Hynds presented concern on the number of options presented and if certain scenarios should be eliminated from consideration. Chief Luna indicated that review would take place at August's meeting, and the scenarios will be redistributed in a consistent format so it will be clearer about the choices.
- Carolyn Levering spoke to Page 1's "not participating" and "past allocations" and asked if the NRAC is to assume that none of these entities will participate in this year's process. Chief Luna spoke to the non-participating as amounts allocated previously, but the standard allocation amount refers to the current participation list.
- Kelli Anderson indicated that each subrecipient must fulfill certain criteria to become eligible. One consideration is to understand that as a local jurisdiction comes to the table as eligible, and they are approved to participate after demonstrating competency, it will affect everyone's allocation. Noting outreach efforts regarding this issue, Ms. Anderson indicated that Lyon County has indicated an interest in participating, and Ms. Anderson can bring more information to the NRAC in future meetings. Lyon County did not apply as of current date.
- Carolyn Levering noted four counties not participating in Page 1; however, in the charts following, the City of Sparks is listed as participating but they have no allocation noted. Ms. Levering asked where their allocation went. Kelli Anderson indicated she was aware of an agreement between the City of Sparks and Washoe County that the City of Sparks would be participating regionally, but their allocation would roll to Washoe County. Carolyn Levering asked about Reno being a stand-alone city as well, with Ms. Anderson explaining some of the challenges and complexities of that program. The City of Reno deobligated their entire allocation and it was reobligated several years ago, but the City of Reno has been eligible and received a consistent standard allocation in recent years.
- Billy Samuels, Clark County Fire Department, referred to Clark County's (Mesquite) 2019's allocation being zero; however other charts show nothing is allocated for 2019, but other charts show receipt of funds if they have an increase in total population in Mesquite. Kelli

DRAFT MINUTES – For approval at the August 17, 2020, NRAC Meeting

Anderson spoke to challenges with Mesquite’s program being compliant. If the NRAC votes on an allocation next month, it will be based on current allocation dates. It is hard to determine allocation dates and compliance because DEM/HS must see the applications before that determination is made. Chief Luna spoke to standard allocations not being based off population but rather a historical amount that is not determinable. With the new formula-based scenarios, the population is included in almost all the scenarios. Even though Mesquite’s population grew the largest percentage, the overall population numbers have not increased dramatically relative to the state’s total population.

- Carolyn Levering requested a scenario that shows 0.75 percent base allocation to counties only, and not cities. Chief Luna indicated he can do another scenario for 0.75 percent for counties only with the remainder divided up by population.
- Chief Luna thanked the membership for their input, and hopefully this information helps the members prepare for the August meeting where the NRAC will be asked to recommend a specific allocation scenario.

8. Public Comment

Chief Luna opened the second period of public comment for discussion. No public comment was presented.

9. Adjourn

Chief Luna called for a motion to adjourn the meeting. A motion was presented by Mike Wilson, Clark County School District, and a second was presented by Jeanne Freeman. All were in favor with no opposition. Meeting adjourned.

The Nevada Resilience Advisory Committee

Bylaws

I. Authority

The Nevada Resilience Advisory Committee (“Committee”) is established in Chapter 239C of the Nevada Revised Statutes (NRS), which was passed and approved through Senate Bill 35 of the 80th Session of the Nevada State Legislature. It was previously established as the Resilience Commission under Executive Order 2018-4, entitled, “Implementation of Nevada’s Statewide Resilience Strategy,” signed by Governor Sandoval on March 12, 2018, and under the authority of the Chief of the Division of Emergency Management (“DEM”) as permitted by NRS Chapter 414.

II. Purpose and Mission

The Committee was established to streamline Nevada’s existing emergency management and homeland security public body structure, grant allocation processes, as well as, mitigation, preparedness, response, and recovery efforts. The Committee will ensure statewide collaboration in the development and implementation of all homeland security and emergency management preparedness initiatives and propose balanced allocation of grant funding to address statewide needs.

The Committee serves in an advisory role to the Chief of DEM. Therefore, the mission of the Committee will be to provide recommendations, and as a result, will not usurp the power of the State Administrative Agent (“SAA”) to manage the multiple grant funding streams that enter the State of Nevada.

The Committee will serve in the capacity of, and complete the functions of, the State Senior Advisory Council, the Homeland Security Working Group, the State Interoperability Executive Board, the State Interoperability Governance Board, Emergency Management Coordinating Council, Nevada Hazards Mitigation Planning Committee and Subcommittee, Nevada Earthquake Safety Council, and the Citizens Corps Council.

III. Membership

The Chief of DEM shall appoint no more than thirty-four (34) voting members to the Committee that are determined to be an appropriate cross section of emergency management and homeland security professionals within Nevada, while representing the rural, urban, and tribal communities throughout the state. The voting membership, excluding the Chair, will serve two (2) year terms and may be reappointed without limitation.

IV. Officers and Duties

The Officers of the Committee shall consist of the Chair, Vice Chair, the SAA, and the SAA's designee. The Chair will appoint a Vice Chair annually.

The Committee will provide a report to the Governor on or before January 1st of each year detailing the activities of the Committee.

V. Meetings

Committee meetings will be called at the discretion of the Chair but not less than once per month.

Committee meetings are subject to the Nevada Open Meeting Law contained in NRS Chapter 241.

VI. Subcommittees

The Committee may appoint no more than two (2) subcommittees under the Committee at any given time. Each subcommittee established under the Committee will have six (6) months to complete its assigned task. If the subcommittee is unable to complete its assigned task within six (6) months, the subcommittee will be terminated unless extended by vote of the Committee for an additional three (3) months.

Subcommittee membership will be established by the Chair.

Subcommittee meetings are subject to the Nevada Open Meeting Law contained in NRS Chapter 241.

VII. Voting

A majority of voting members of the Committee constitutes a quorum for the transaction of business and a majority of those voting members present at any meeting is sufficient for any official action taken by the Committee.

VIII. Attendance

Attendance is critical to achieving quorum, having balanced input, and conducting business of the Committee. Any member who misses more than two (2) consecutive meetings may be removed from the Committee at the discretion of the Chair.

IX. Administrative Support

DEM shall provide administrative support to the Committee.

X. Amendments

1. April 9, 2019: The Commission identified a typographical correction in paragraph 2 of the “Purpose and Mission” section of the Bylaws.
2. July 9, 2019: The Bylaws were updated to include requirements of SB35 (2019), which include the name of the public body, the size of the public body’s membership, the titles of the Officers, and the reference to subcommittees under the public body.
3. October 8, 2019: The Bylaws format was changed to include all updates as amendments under Section X in addition to identifying and removing a parenthetical reminder in Section IV, paragraph 1.
4. January 22, 2020: The Bylaws were updated to more specifically reference requirements of SB35 (2019) regarding membership terms and reappointments, changing Section III.

The Bylaws will be reviewed quarterly and may be amended when necessary by a vote of the Committee and subsequent approval by the Chair.

John C. Steinbeck, Vice Chair

Justin Luna, Chair

The Nevada Resilience Advisory Committee

Bylaws

I. Authority

The Nevada Resilience Advisory Committee (“Committee”) is established in Chapter 239C of the Nevada Revised Statutes (NRS), which was passed and approved through Senate Bill 35 of the 80th Session of the Nevada State Legislature in 2019. It was previously established as the Resilience Commission under Executive Order 2018-4, entitled, “Implementation of Nevada’s Statewide Resilience Strategy,” signed by Governor Sandoval on March 12, 2018, and under the authority of the Chief of the Division of Emergency Management (“DEM”) as permitted by NRS Chapter 414.

II. Purpose and Mission

The Committee was established to streamline Nevada’s existing emergency management and homeland security public body structure, grant allocation processes, as well as, mitigation, preparedness, response, and recovery efforts. The Committee will ensure statewide collaboration in the development and implementation of all homeland security and emergency management preparedness initiatives and propose balanced allocation of grant funding to address statewide needs.

The Committee serves in an advisory role to the Chief of DEM. Therefore, the mission of the Committee will be to provide recommendations, and as a result, will not usurp the power of the State Administrative Agent (“SAA”) to manage the multiple grant funding streams that enter the State of Nevada.

The Committee will serve in the capacity of, and complete the functions of, the State Senior Advisory Council, the Homeland Security Working Group, the State Interoperability Executive Board, the State Interoperability Governance Board, Emergency Management Coordinating Council, Nevada Hazards Mitigation Planning Committee and Subcommittee, Nevada Earthquake Safety Council, and the Citizens Corps Council.

III. Membership

The Chief of DEM shall appoint no more than thirty-four (34) voting members to the Committee that are determined to be an appropriate cross section of emergency management and homeland security professionals within Nevada, while representing the rural, urban, and tribal communities throughout the state. The voting membership, excluding the Chair, will serve two (2) year terms and may be reappointed without limitation.

IV. Officers and Duties

The Officers of the Committee shall consist of the Chair, Vice Chair, the SAA, and the SAA's designee. The Chair will appoint a Vice Chair annually.

The Committee will provide a report to the Governor, the Nevada Commission on Homeland Security, and the Legislative Counsel Bureau on or before ~~January~~ February 1st of each year detailing the activities of the Committee.

V. Meetings

Committee meetings will be called at the discretion of the Chair but not less than once per month.

Committee meetings are subject to the Nevada Open Meeting Law contained in NRS Chapter 241.

VI. Subcommittees

The Committee may appoint no more than two (2) subcommittees under the Committee at any given time. Each subcommittee established under the Committee will have six (6) months to complete its assigned task. If the subcommittee is unable to complete its assigned task within six (6) months, the subcommittee will be terminated unless extended by vote of the Committee for an additional three (3) months.

Subcommittee membership will be established by the Chair.

Subcommittee meetings are subject to the Nevada Open Meeting Law contained in NRS Chapter 241.

VII. Voting

A majority of voting members of the Committee constitutes a quorum for the transaction of business and a majority of those voting members present at any meeting is sufficient for any official action taken by the Committee.

VIII. Attendance

Attendance is critical to achieving quorum, having balanced input, and conducting business of the Committee. Any member who misses more than two (2) consecutive meetings may be removed from the Committee at the discretion of the Chair.

IX. Administrative Support

DEM shall provide administrative support to the Committee.

X. Amendments

1. April 9, 2019: The Commission identified a typographical correction in paragraph 2 of the “Purpose and Mission” section of the Bylaws.
2. July 9, 2019: The Bylaws were updated to include requirements of SB35 (2019), which include the name of the public body, the size of the public body’s membership, the titles of the Officers, and the reference to subcommittees under the public body.
3. October 8, 2019: The Bylaws format was changed to include all updates as amendments under Section X in addition to identifying and removing a parenthetical reminder in Section IV, paragraph 1.
4. January 22, 2020: The Bylaws were updated to more specifically reference requirements of SB35 (2019) regarding membership terms and reappointments, changing Section III.

The Bylaws will be reviewed as frequently as required as determined by the Chair, but not less than once a year ~~quarterly~~ and may be amended when necessary by a vote of the Committee and subsequent approval by the Chair.

~~John C. Steinbeck~~ Billy Samuels, Vice Chair

Justin Luna, Chair

NEVADA RESILIENCE ADVISORY COMMITTEE

NRS 239C.400 Creation; appointment of members; designation of officers; term.

1. The Nevada Resilience Advisory Committee is hereby created.
2. With the approval of the Director of the Department of Public Safety, the Chief of the Division shall appoint to the Committee not more than 34 voting members that the Chief determines to be appropriate and who have expertise in:
 - (a) Emergency management;
 - (b) Homeland security;
 - (c) Public safety;
 - (d) Cybersecurity;
 - (e) School safety; or
 - (f) Public health.
3. With the approval of the Director of the Department of Public Safety, the Chief or his or her designee shall:
 - (a) Serve as the Chair and a voting member of the Committee; and
 - (b) Appoint one voting member of the Committee to serve as Vice Chair.
4. The term of office of each voting member of the Committee is 2 years. This term limit does not apply to the Chair. A member may be reappointed.
(Added to NRS by [2019, 1024](#))

NRS 239C.410 Meetings; quorum.

1. The Nevada Resilience Advisory Committee shall meet at the call of the Chair of the Committee as frequently as required to perform its duties, but not less than once a month.
2. A majority of the voting members of the Committee constitutes a quorum for the transaction of business, and a majority of those voting members present at any meeting is sufficient for any official action taken by the Committee.
(Added to NRS by [2019, 1024](#))

NRS 239C.420 Compliance with Open Meeting Law; exceptions; confidentiality.

1. Except as otherwise provided in subsections 2 and 3, the Nevada Resilience Advisory Committee and any subcommittee formed pursuant to [NRS 239C.450](#) shall comply with the provisions of [chapter 241](#) of NRS and shall conduct all meetings in accordance with that chapter.
2. The Committee and, with the prior approval of the Committee, any subcommittee formed pursuant to [NRS 239C.450](#) may hold a closed meeting for sensitive issues relating to emergency management or homeland security if the Committee or subcommittee, as applicable, determines that the public disclosure of such matters would be likely to compromise, jeopardize or otherwise threaten the safety of the public.
3. Except as otherwise provided in [NRS 239.0115](#), all information and materials received or prepared by the Committee and any subcommittee formed pursuant to [NRS 239C.450](#) during a meeting closed pursuant to subsection 2 and all minutes and audiovisual or electronic reproductions of such a meeting are confidential, are not subject to subpoena or discovery and are not subject to inspection by the general public.
(Added to NRS by [2019, 1024](#))

NRS 239C.430 Compensation of members.

1. A member of the Nevada Resilience Advisory Committee or any subcommittee formed pursuant to [NRS 239C.450](#) may not receive any compensation for his or her services as a member of the Committee or the subcommittee.
2. Any member of the Committee or any subcommittee formed pursuant to [NRS 239C.450](#) who is a public employee must be granted administrative leave from his or her duties to engage in the business of the Committee or subcommittee, as applicable, without loss of his or her regular compensation. Such leave does not reduce the amount of his or her other accrued leave.
3. Each member of the Committee or any subcommittee formed pursuant to [NRS 239C.450](#) is entitled, while engaged in the business of the Committee or subcommittee, to receive the per diem allowance and travel expenses provided for state officers and employees generally. The per diem allowance and travel expenses provided to a member of the Committee or subcommittee who is an officer or employee of the State of Nevada or a political subdivision of this State must be paid by the state agency or political subdivision which employs him or her.
(Added to NRS by [2019, 1025](#))

NRS 239C.440 Duties. The Nevada Resilience Advisory Committee shall, within the limits of available money:

1. Annually develop state resilience goals and related objectives for the Committee;
2. Formulate advisory recommendations and policies regarding the emergency management, emergency response and homeland security efforts for the State, as well as statewide mitigation, preparedness, response and recovery efforts;
3. In accordance with the state resilience goals and related objectives developed pursuant to subsection 1:
 - (a) Review grants proposed by state agencies, political subdivisions or tribal governments that are responsible for homeland security and make recommendations and provide related advice concerning such grants to the Committee on Finance appointed pursuant to [NRS 239C.170](#);
 - (b) Review grants proposed by agencies of this State, political subdivisions or tribal governments that are responsible for emergency management or emergency response and make recommendations and provide related advice concerning such grants to the Chief of the Division; and
 - (c) Review statewide mitigation, preparedness, response and recovery efforts in consultation with political subdivisions and tribal governments and make recommendations to such political subdivisions and tribal governments concerning these coordination efforts; and
4. Develop the annual report required pursuant to [NRS 239C.480](#) of this act.
(Added to NRS by [2019, 1025](#))

NRS 239C.450 Appointment of subcommittees.

1. Subject to the provisions of subsection 2, the Nevada Resilience Advisory Committee may appoint any subcommittee deemed necessary by the Committee to assist in carrying out the duties of the Committee.
2. The Committee may appoint not more than two subcommittees at any time.

3. Each subcommittee formed pursuant to subsection 1 must:

- (a) Have a specific objective; and
- (b) Operate for not more than 6 months, unless an extension is approved by the Committee.

4. The Chair of the Committee shall appoint to a subcommittee formed pursuant to subsection 1 the number of voting members that the Chair of the Committee determines to be appropriate. The Chair may appoint any person the Chair deems appropriate to serve on a subcommittee, except that a subcommittee must include at least one member of the Committee.

5. At the first meeting of the subcommittee and, if an extension is approved pursuant to paragraph (b) of subsection 3, every 6 months thereafter, a subcommittee formed pursuant to subsection 1 shall select a chair and a vice chair from the members of the subcommittee.

(Added to NRS by [2019, 1026](#))

NRS 239C.460 Staff assistance. The Chief of the Division shall provide such staff assistance to the Nevada Resilience Advisory Committee as the Chief deems appropriate.

(Added to NRS by [2019, 1026](#))

NRS 239C.470 Gifts, grants and contributions. The Nevada Resilience Advisory Committee may apply for and receive gifts, grants, contributions or other money from governmental and private agencies, affiliated associations and other persons to carry out the provisions of [NRS 239C.400](#) to [239C.480](#), inclusive, and to defray expenses incurred by the Committee in the discharge of its duties.

(Added to NRS by [2019, 1026](#))

NRS 239C.480 Annual report. On or before February 1 of each year, the Nevada Resilience Advisory Committee shall:

1. Prepare a report setting forth:

- (a) The activities of the Committee which occurred during the preceding calendar year;
- (b) Any assessments of the programs and processes conducted by the Committee to achieve the state resilience goals and related objectives developed pursuant to [NRS 239C.440](#) and the capacity of such programs and processes;

(c) Any recommendations created by the Committee that are based on the activities and assessments conducted during the preceding calendar year; and

(d) A description of any matters with respect to which the Committee held a closed meeting or a closed portion of a meeting, as applicable, accompanied by an explanation of the reasons why the Committee determined that the meeting or portion thereof needed to be closed; and

2. Submit a copy of the report to:

- (a) The Nevada Commission on Homeland Security;
- (b) The Governor; and
- (c) The Director of the Legislative Counsel Bureau for transmittal to:
 - (1) If the Legislature is in session, the standing committees of the Legislature which have jurisdiction of the subject matter; or
 - (2) If the Legislature is not in session, the Legislative Commission.

(Added to NRS by [2019, 1026](#))

Nevada Department of
Public Safety

Division of Emergency Management
Office of Homeland Security

Statement of Purpose

The Nevada Resilience Advisory Committee is focused on supporting emergency management, emergency response, and homeland security efforts through providing recommendations to the Governor and community to ensure resiliency.

Upon further research, FEMA, state agencies, and local jurisdictions were using various terms to define specific threats and hazards. In order to support this effort, DEM has developed a standardized list of threats and hazards to be used in the planning process.

The standardized list of terms combines FEMA definitions with a list of hazards specific to geography and industry in Nevada. This document is also a tool that may be used for jurisdictions to facilitate their THIRA/SPR planning, plan development and updates, and grant applications through DEM and DHS.

Chemical, Biological, Radiological, Nuclear & Explosives (CBRNE)

A hazardous materials incident is a situation in which harmful substances are released into the environment. These types of releases are often classified as chemical, biological, radiological, nuclear or explosives (CBRNE).

Intentional releases of hazardous materials include criminal acts, such as purposeful dumping by industries to avoid regulatory requirements, or terrorist acts that target a specific location, possibly involving a dispersal device or explosive.

Chemical

Chemical warfare is warfare using the toxic properties of chemical substances to kill, injure or incapacitate an enemy. Chemical weapons are classified as weapons of mass destruction by the United Nations, and their production and stockpiling was outlawed by the Chemical Weapons Convention of 1993.

Biological

Biological warfare involves the intentional release of living pathogens either in their naturally occurring form, for example the diseased corpses of animals, or in the form of specific human-modified organisms (in this context also known as 'germ warfare').

Radiological

The employment of agents or weapons to produce residual radioactive contamination, as distinguished from the initial effects of a nuclear explosion (blast, thermal, and initial nuclear radiation).

Nuclear

Nuclear warfare, is a military conflict or political strategy in which nuclear weaponry is used to inflict damage on an opponent. Compared to conventional warfare, nuclear warfare can be vastly more destructive in range and extent of damage, and in a much shorter time frame. A major nuclear exchange could have severe long-term effects, primarily from radiation release, but also from the production of high levels of atmospheric pollution leading to a "nuclear winter" that could last for decades, centuries, or even millennia after the initial attack.

Explosives

The use of high explosive to project blast and/or fragmentation from a point of detonation.

Explosive weapons may be subdivided by their method of manufacture into explosive ordnance and improvised explosive devices (IEDs). Certain types of explosive ordnance and many improvised explosive devices are sometimes referred to under the generic term bomb.

	<h2>Civil Disturbance</h2>
	<p>Civil disturbance hazards encompass a set of hazards emanating from a wide range of possible events that cause civil disorder, confusion, strife, and economic hardship. Civil disturbance hazards include the following:</p> <ul style="list-style-type: none"> • Famine; involving a widespread scarcity of food leading to malnutrition and increased mortality. • Economic Collapse, Recession; Very slow or negative growth. • Misinformation; erroneous information spread unintentionally. • Civil Disturbance, Public Unrest, Mass Hysteria, Riot; group acts of violence against property and individuals.
	<h2>Cybersecurity</h2>
	<p>Cyber security is the practice of defending computers, servers, mobile devices, electronic systems, networks, and data from malicious attacks. It's also known as information technology security or electronic information security.</p> <p>Common Types of Cybersecurity:</p> <ul style="list-style-type: none"> • Network Security protects network traffic by controlling incoming and outgoing connections to prevent threats from entering or spreading on the network. • Data Loss Prevention (DLP) protects data by focusing on the location, classification and monitoring of information at rest, in use and in motion. • Cloud Security provides protection for data used in cloud-based services and applications. • Intrusion Detection Systems (IDS) or Intrusion Prevention Systems (IPS) work to identify potentially hostile cyber activity. • Identity and Access Management (IAM) use authentication services to limit and track employee access to protect internal systems from malicious entities. • Antivirus/anti-malware solutions scan computer systems for known threats. Modern solutions are even able to detect previously unknown threats based on their behavior.
	<h2>Drought</h2>
	<p>Drought is defined as a prolonged period during which there is an extended deficit of precipitation below normal amounts over one or more seasons spread over a considerable geographical area. This differs from normal desert conditions that exist in Nevada where county-average annual precipitation ranges from four inches per year in Clark County to 12 inches in Storey County, averaging nine inches per year statewide making it the driest state in the U.S.</p> <p>Severity of drought can be aggravated by other factors such as high temperature, high wind, and low relative humidity.</p>

Floods, Landslides & Debris Flow

Floods

An overflow of water onto normally dry land. The inundation of a normally dry area caused by rising water in an existing waterway, such as a river, stream, or drainage ditch. Ponding of water at or near the point where the rain fell. Flooding is a longer-term event than flash flooding: it may last days or weeks.

Landslides & Debris Flow

In a landslide, masses of rock, earth or debris move down a slope. Debris and mud flows are rivers of rock, earth and other debris saturated with water. They develop during intense rainfall, runoff, or rapid snowmelt, changing the earth into a flowing river of mud or "slurry." They can flow rapidly, striking with little or no warning at avalanche speeds (faster than a person can run). They also can travel many miles from their source, growing as they pick up trees, boulders, cars and other materials.

Geohazards

Avalanche

An avalanche is a large amount of snow moving quickly down a mountain, typically on slopes of 30 to 45 degrees. When an avalanche stops, the snow becomes solid like concrete and people are unable to dig out. People caught in avalanches can die from suffocation, trauma, or hypothermia.

Earthquakes

An earthquake is a sudden, rapid shaking of the earth as plates shift, rock cracks beneath its surface, and large plates either collide or try to push past one other. As rocks and the earth's plates are strained by these tremendous geological processes, energy builds up under the earth's surface and eventually releases abruptly in seismic waves that shake the earth's surface.

Fissures & Subsidence

A fissure is a fracture or crack in rock along which there is a distinct separation; fissures are often filled with mineral-bearing materials. Subsidence is the sinking of the ground because of underground material movement—is most often caused by the removal of water, oil, natural gas, or mineral resources out of the ground by pumping, fracking, or mining activities. Subsidence can also be caused by natural events such as earthquakes, soil compaction, glacial isostatic adjustment, erosion, sinkhole formation, and adding water to fine soils deposited by wind.

Volcanoes

A volcano is an opening in the Earth's crust that allows molten rock, gases, and debris to escape to the surface. Alaska, Hawaii, California, and Oregon have the most active volcanoes, but other states and territories have active volcanoes, too. A volcanic eruption may involve lava and other debris that can flow up to 100 mph, destroying everything in their path. Volcanic ash can travel 100s of miles and cause severe health problems.

Hazardous Materials Incident

A hazardous materials (HAZMAT) incident is a type of safety incident that involves the uncontrolled release of one or more hazardous materials into an environment in which humans are or could be present or that otherwise holds the potential to put human or environmental safety at risk if not addressed.

Infectious Disease

Emerging Disease with Epidemic Potential

An emerging disease with epidemic potential is a disease with new or emerging features that challenge control. This does not include highly-transmissible respiratory viruses, which are addressed under "Respiratory virus with pandemic potential". Emerging diseases are difficult to contain or treat and present significant challenges to risk communication since mechanics of transmission, laboratory identification, and effective treatment protocols may be unknown.

This includes the intentional or accidental release of a biological weapon or synthetic pathogen for which there is no antidote or cure. Previous events that fit this hazard include Ebola, Zika, the emergence of HIV, and the current opioid epidemic.

Respiratory Virus with Pandemic Potential

A respiratory virus with pandemic potential is a highly contagious respiratory virus that spreads easily from person to person and for which there is little human immunity. This hazard includes pandemic influenza. This hazard strains the healthcare system, requires school closures, causes high rates of illness and absenteeism that undermine critical infrastructure across the city, and decreases community trust due to social distancing measures interfering with personal movement and being perceived as being ineffectual.

Previous events that exemplify this hazard include the 1918 ("Spanish flu") and 2009 ("Swine flu") influenza pandemics and the 2019-2020 Coronavirus Pandemic ("COVID-19").

Infrastructure

Dam Failure

Dams are water storage, control or diversion structures that impound water upstream in reservoirs.

Dam failure can take several forms, including a collapse of, or breach in, the structure. While most dams have storage volumes small enough that failures have few or no repercussions, dams storing large amounts can cause significant flooding downstream.

Power Outage

A power outage is when the electrical power goes out unexpectedly. Can disrupt communications, water, transportation, close businesses, stores, banking services and gas stations. Medical devices may be unable to function and food spoilage/water contamination can occur.

Seiche

Seiches are typically caused when strong winds and rapid changes in atmospheric pressure push water from one end of a body of water to the other. When the wind stops, the water rebounds to the other side of the enclosed area. The water then continues to oscillate back and forth for hours or even days. In a similar fashion, earthquakes, tsunamis, or severe storm fronts may also cause seiches along lake shelves and lake harbors.

Severe Weather

Severe weather can include hazardous conditions produced by thunderstorms, including damaging winds, tornadoes, large hail, flooding and flash flooding, and winter storms associated with freezing rain, sleet, snow and strong winds.

Extreme Heat

Extreme heat is a period of high heat and humidity with temperatures above 90 degrees for at least two to three days. In extreme heat your body works extra hard to maintain a normal temperature, which can lead to death.

Thunderstorms & Lightning

Lightning is a leading cause of injury and death from weather-related hazards. Although most lightning victims survive, people struck by lightning often report a variety of long-term, debilitating symptoms. Thunderstorms are dangerous storms that include lightning and can:

Include powerful winds over 50 MPH; create hail; and cause flash flooding and tornadoes.

Tornado

A violently rotating column of air touching the ground, usually attached to the base of a thunderstorm. Some tornadoes are clearly visible, while rain or nearby low-hanging clouds obscure others. Tornadoes develop extremely rapidly and may dissipate just as quickly. Most tornadoes are on the ground for less than 15 minutes.

Winter Storms & Extreme Cold

Winter storms create a higher risk of car accidents, hypothermia, frostbite, carbon monoxide poisoning, and heart attacks from overexertion. Winter storms and blizzards can bring extreme cold, freezing rain, snow, ice, and high winds.

Terrorism

International Terrorism

Violent, criminal acts committed by individuals and/or groups who are inspired by, or associated with, designated foreign terrorist organizations or nations (state-sponsored).

Domestic Terrorism

Violent, criminal acts committed by individuals and/or groups to further ideological goals stemming from domestic influences, such as those of a political, religious, social, racial, or environmental nature.

Active Assailant / Shooter

An Active Shooter / Assailant is an individual actively engaged in killing or attempting to kill people in a confined and populated area; in most cases, active shooters / assailants use firearms(s) and there is no pattern or method to their selection of victims. These situations are unpredictable and evolve quickly. Typically, the immediate deployment of law enforcement is required to stop the shooting and mitigate harm to victims.

Because these situations are often over within 10 to 15 minutes, before law enforcement arrives on the scene, individuals must be prepared both mentally and physically to deal with an active shooter situation.

Complex Coordinated Attack

A Complex Coordinated Attack (CCA), also known as a Complex Coordinated Terrorist Attack, is a violent assault or series of assaults by one or more individuals or groups with various motives including terrorist ideology, using one or more type of weapons with the intent to inflict harm on large numbers of people. Complex coordinated attacks are an evolving and dynamic threat, shifting from symbolic, well-planned attacks on high-visibility targets to attacks that are more dispersed and difficult to detect.

Attackers may employ the following tactics, which differentiate a CCA from other types of incidents:

- Use of well-armed, well-trained individuals in small teams employing military or law enforcement style tactics;
- Strike multiple targets simultaneously or in close succession;
- Strike quickly and move to another location before law enforcement can interdict and disrupt;
- Delay or deny entry and exit to victims and first responders by blocking exits and/or chaining/rigging doors with explosives, using tear gas, and/or using fire/smoke to delay law enforcement response efforts and potentially prolong the incident;
- Deploy diversions to slow public safety response, consume responder resources, or draw responders toward or away from specific locations;
- Coordinate timing and methods (e.g., firearms, improvised explosive devices, hazardous materials) with other attackers and accomplices providing assistance to the attackers; and
- Conduct secondary attacks on first responders, evacuation routes, and/or additional sites, such as medical facilities, that are part of the response.

Transportation

Aviation Accidents & Incidents

An aviation accident is an occurrence associated with the operation of an aircraft, which takes place from the time any person boards the aircraft with the *intention of flight* until all such persons have disembarked, and in which:

- a) a person is fatally or seriously injured
- b) the aircraft sustains significant damage or structural failure, or
- c) the aircraft goes missing or becomes completely inaccessible.

Railway Incidents

Railway incidents include collisions, derailments, and other events involving the operation of on-track equipment and causing reportable damage above an established threshold; impacts between railroad on-track equipment and highway users at crossings; and all other incidents or exposures that cause a fatality or injury to any person, or an occupational illness to a railroad employee.

Accidents/incidents are divided into three major groups for reporting purposes.

- Train accidents. A safety-related event involving on-track rail equipment causing monetary damage to the rail equipment and track above a prescribed amount.
- Highway-rail grade crossing incidents. Any impact between a rail and highway user both motor vehicles and other users of the crossing as a designated crossing site, including walkways, sidewalks, etc., associated with the crossing.
- Other incidents. any death, injury, or occupational illness of a railroad employee that is not the result of a "train accident" or "highway-rail incident."

Motor Vehicle Incidents

A motor vehicle incident (MVA) occurs when a vehicle collides with another vehicle, pedestrian, animal, road debris, or other stationary obstruction, such as a tree, pole or building. Traffic collisions often result in injury, disability, death, and property damage as well as financial costs to both society and the individuals involved.

Wildfire

A wildfire is an unplanned fire that burns in a natural area such as a forest, grassland, or prairie resulting in ruined homes and possible injury/death to people and animals. Wildfires can:

- Often be caused by humans or lightning.
- Cause flooding or disrupt transportation, gas, power, and communications.
- Happen anywhere, anytime. Risk increases with in periods of little rain and high winds.

The award will be allocated 50% to counties/cities and 50% to state/tribal. Any increases or decreases to future grant awards will be shared equally between the two halves. If a city does not have an eligible program, that city's amount gets re-allocated to the county. If a county does not have an eligible program, that county's amount gets re-allocated to the state. Per NRS 414.090, each county shall establish a local organization for emergency management.

The State Administrative Agent may consider re-allocations outside of the formula amounts based on agreements between jurisdictions. Tribal allocations will be managed from the state portion through the Nevada Tribal Emergency Coordinating Council (NTECC). Based on the formula, allocations may change annually if there is a change in the overall award amount. Population will be updated when Census numbers are released and five years after the Census based on State Demographer estimates. https://tax.nv.gov/Publications/Population_Statistics_and_Reports/

The State Administrative Agent may consider re-allocations outside of the formula amounts based on agreements between jurisdictions.
Tribal allocations will be managed from the state portion through the Nevada Tribal Emergency Coordinating Council (NTECC).
Based on the formula, allocations may change annually if there is a change in the overall award amount.
Population will be updated when Census numbers are released and five years after the Census based on State Demographer estimates.

The award will be allocated 50% to counties/cities and 50% to state/tribal. Any increases or decreases to future grant awards will be shared equally between the two halves. If a city does not have an eligible program, that city's amount gets re-allocated to the county. If a county does not have an eligible program, that county's amount gets re-allocated to the state. Per NRS 414.090, each county shall establish a local organization for emergency management.

The State Administrative Agent may consider re-allocations outside of the formula amounts based on agreements between jurisdictions. Tribal allocations will be managed from the state portion through the Nevada Tribal Emergency Coordinating Council (NTECC). Based on the formula, allocations may change annually if there is a change in the overall award amount. Population will be updated when Census numbers are released and five years after the Census based on State Demographer estimates. https://tax.nv.gov/Publications/Population_Statistics_and_Reports/

The State Administrative Agent may consider re-allocations outside of the formula amounts based on agreements between jurisdictions.
Tribal allocations will be managed from the state portion through the Nevada Tribal Emergency Coordinating Council (NTECC).
Based on the formula, allocations may change annually if there is a change in the overall award amount.
Population will be updated when Census numbers are released and five years after the Census based on State Demographer estimates.

The award will be allocated 50% to counties/cities and 50% to state/tribal. Any increases or decreases to future grant awards will be shared equally between the two halves. If a city does not have an eligible program, that city's amount gets re-allocated to the county. If a county does not have an eligible program, that county's amount gets re-allocated to the state. Per NRS 414.090, each county shall establish a local organization for emergency management.

The State Administrative Agent may consider re-allocations outside of the formula amounts based on agreements between jurisdictions. Tribal allocations will be managed from the state portion through the Nevada Tribal Emergency Coordinating Council (NTECC). Based on the formula, allocations may change annually if there is a change in the overall award amount. Population will be updated when Census numbers are released and five years after the Census based on State Demographer estimates. https://tax.nv.gov/Publications/Population_Statistics_and_Reports/

The award will be allocated 50% to counties/cities and 50% to state/tribal. Any increases or decreases to future grant awards will be shared equally between the two halves. If a county does not have an eligible program, that city's amount gets re-allocated to the county. If a county does not have an eligible program, that county's amount gets re-allocated to the state. Per NRS 414.090, each county shall establish a local organization for emergency management.

The State Administrative Agent may consider re-allocations outside of the formula amounts based on agreements between jurisdictions. Tribal allocations will be managed from the state portion through the Nevada Tribal Emergency Coordinating Council (NTECC). Based on the formula, allocations may change annually if there is a change in the overall award amount. Population will be updated when Census numbers are released and five years after the Census based on State Demographer estimates. https://tax.nv.gov/Publications/Population_Statistics_and_Reports/

The award will be allocated 50% to counties/cities and 50% to state/tribal. Any increases or decreases to future grant awards will be shared equally between the two halves. If a city does not have an eligible program, that city's amount gets re-allocated to the county. If a county does not have an eligible program, that county's amount gets re-allocated to the state. Per NRS 414.090, each county shall establish a local organization for emergency management.

The State Administrative Agent may consider re-allocations outside of the formula amounts based on agreements between jurisdictions. Tribal allocations will be managed from the state portion through the Nevada Tribal Emergency Coordinating Council (NTECC). Based on the formula, allocations may change annually if there is a change in the overall award amount. Population will be updated when Census numbers are released and five years after the Census based on State Demographer estimates. https://tax.nv.gov/Publications/Population_Statistics_and_Reports/

The award will be allocated 50% to counties/cities and 50% to state/tribal.
Any increases or decreases to future grant awards will be shared equally between the two halves.
If a city does not have an eligible program, that city's amount gets re-allocated to the county.
If a county does not have an eligible program, that county's amount gets re-allocated to the state.
Per NRS 414.090, each county shall establish a local organization for emergency management.

The State Administrative Agent may consider re-allocations outside of the formula amounts based on agreements between jurisdictions.
Tribal allocations will be managed from the state portion through the Nevada Tribal Emergency Coordinating Council (NTECC).
Based on the formula, allocations may change annually if there is a change in the overall award amount.
Population will be updated when Census numbers are released and five years after the Census based on State Demographer estimates.

The award will be allocated 50% to counties/cities and 50% to state/tribal. Any increases or decreases to future grant awards will be shared equally between the two halves. If a city does not have an eligible program, that city's amount gets re-allocated to the county. If a county does not have an eligible program, that county's amount gets re-allocated to the state. Per NRS 414.090, each county shall establish a local organization for emergency management.

The State Administrative Agent may consider re-allocations outside of the formula amounts based on agreements between jurisdictions. Tribal allocations will be managed from the state portion through the Nevada Tribal Emergency Coordinating Council (NTECC). Based on the formula, allocations may change annually if there is a change in the overall award amount. Population will be updated when Census numbers are released and five years after the Census based on State Demographer estimates. https://tax.nv.gov/Publications/Population_Statistics_and_Reports/

Draft County & City Allocation by Population & Base
Proposed for Federal Fiscal Year (FFY) 2021 effective October 1, 2020

Table with 6 columns: Local Governments, 2010 Census Population, 7/1/19 Population, % of 7/1/19 Population, Standard Allocation, % of Total Allocation. Lists various local governments and their respective allocations.

Table with 6 columns: Local Governments, 2010 Census Population, 7/1/19 Population, % of 7/1/19 Population, Standard Allocation, % of Total Allocation. Lists tribal entities like Duck Water Shoshone and Fallon Paiute.

Table with 6 columns: State Allocation, 2010 Census Population, 7/1/19 Population, % of 7/1/19 Population, Standard Allocation, % of Total Allocation. Shows state allocation totals.

Summary row for FFY19 Award Total: \$ 4,551,655.00, 100.00%

FFY2020 Award \$ 4,639,757.00

\$ 4,639,757.00

The award will be allocated 50% to counties/cities and 50% to state/tribal. Any increases or decreases to future grant awards will be shared equally between the two halves. If a city does not have an eligible program, that city's amount gets re-allocated to the county. If a county does not have an eligible program, that county's amount gets re-allocated to the state. Per NRS 414.090, each county shall establish a local organization for emergency management.

The State Administrative Agent may consider re-allocations outside of the formula amounts based on agreements between jurisdictions. Tribal allocations will be managed from the state portion through the Nevada Tribal Emergency Coordinating Council (NTECC). Based on the formula, allocations may change annually if there is a change in the overall award amount. Population will be updated when Census numbers are released and five years after the Census based on State Demographer estimates. https://tax.nv.gov/Publications/Population_Statistics_and_Reports/
